

COMING TOGETHER ON THE JOURNEY TO END PARKINSON'S

What if everyone could combine forces to stop a neurological disorder that affects nearly 10 million people worldwide? That's Jim McNasby's dream for Parkinson's disease. And, because he lives with the condition himself (our Infinity Deep Brain Stimulation system helps him navigate it day by day), he knows how special it would be to see this dream come true. The good news is that McNasby and his employer, the Michael J. Fox Foundation, are taking important steps forward with the National Plan to End Parkinson's Act.

ON THE EDGE ...

Recently, in Boston and London, thousands of runners set their minds to finishing a marathon. Inspired by their mental grit, we offer this trivia question:

How many laps around a standard track add up to 26.2 miles?

THE REVEL IS IN THE DETAILS FREESTYLE LIBRE 3

This month's focus: Our FreeStyle Libre 3 system. Sometimes, smaller is better. We designed our FreeStyle Libre 3 system to use 41% less plastic than FreeStyle Libre 2. As a result, the sensor shrunk from the size of a quarter to the size of a penny -- [and that's a big win for sustainability.](#)

ON THE EDGE ... OF YOUR SEAT

The answer: 105 laps (and change) around the inner lane of a standard running track gets you to marathon distance. If that didn't cause your brain to cramp, you can dive deeper into the marathon mindset with our Dr. Beth McQuiston.
