

Professional conferences sponsored by ABBOTT LABORATORIES GmbH  
January 2023 - September 2023

| No. | Sponsorships provided   | Date of performance (dd/mm/yyyy) | Total amount paid in local currency (RSD) |
|-----|---|----------------------------------|---|
| 1   | Lecture: "A patient with diabetes in primary health care"   | 13.07.2023                       | 35,000.00                                 |
| 2   | Lecture: "Life with diabetes"   | 13.07.2023                       | 47,000.00                                 |
| 3   | SINERGY 2023  | 14.09-15.09.2023                 | 1,054,895.00                              |
| 4   | Lecture: "How to perform OCT guided PCI: MLD MAX Algorithm"   | 14.09.2023                       | 193,397.49                                |
| 5   | Lecture: "Insights from October: OCT-guided or angiography-guided PCI in complex bifurcation lesions" | 15.09.2023                       | 178,160.11                                |
| 6   | Lecture: "Modern aspects of self-control of glycemia in diabetic patients"                            | 05.04.2023                       | 60,000.00                                 |
| 7   | Symposium DLV-SLD   | 21.04.2023                       | 48,000.00                                 |
| 8   | Distributors meeting Q1   | 25.04-26.04.2023                 | 222,041.09                                |
| 9   | BASICS 16+  | 26.04-27.04.2023                 | 492,709.56                                |
| 10  | Lecture: "Basic knowledge about diabetes"   | 27.04.2023                       | 35,000.00                                 |
| 11  | Lecture: "Complications of diabetes"  | 28.04.2023                       | 35,000.00                                 |
| 12  | Lecture: "Diagnosis and therapy in diabetes"  | 29.04.2023                       | 47,000.00                                 |
| 13  | Lecture: "Nutrition and self-control in diabetes"   | 29.04.2023                       | 35,000.00                                 |
| 14  | Lecture: "Nutrition and physical activity"  | 24.05.2023                       | 35,000.00                                 |
| 15  | Lecture: "Self-management in patients with type 1 and type 2"   | 24.05.2023                       | 35,000.00                                 |
| 16  | Lecture: "Diabetes and self- control of glycemia"   | 24.05.2023                       | 35,000.00                                 |
| 17  | Lecture: "Diabetes-the most frequent complications of the disease"                                    | 30.05.2023                       | 35,000.00                                 |
| 18  | Lecture: "The importance of self-control in diabetes"   | 30.05.2023                       | 35,000.00                                 |
| 19  | Lecture: "What DM patients should know?"  | 13.06.2023                       | 35,000.00                                 |
| 20  | Lecture: "Acute and chronic complications on diabetes"  | 27.06.2023                       | 40,000.00                                 |
| 21  | Lecture: "Primary health care in diabetes"  | 28.06.2023                       | 35,000.00                                 |
| 22  | Lecture: "How to live with diabetes"  | 29.06.2023                       | 35000                                     |
| 23  | Annual Independence Day, 4th of July  | 29.06.2023                       | 45000                                     |
| 24  | 11th Bulgarian Bifurcation and Complex Coronary Interventions Course (BBC 2023)                       | 27.01-29.01.2023                 | 1325720.03                                |
| 25  | Lecture: "OCT Guided PCI in Calcified Lesion & Choice of DES"   | 28.01.2023                       | 97127.5                                   |
| 26  | Lecture: "Physiology Guided PCI & Choice of DES"  | 28.01.2023                       | 97127.5                                   |
| 27  | Lecture: "Hypoglycemia"   | 09.02.2023                       | 47000                                     |
| 28  | Lecture: "Case presentation discussion"   | 16.02-17.02.2023                 | 290380.12                                 |
| 29  | Lecture: "The influence of meal composition and quantity on the postprandial blood sugar level"       | 22.02.2023                       | 35000                                     |
| 30  | OCT training Eastern Europe   | 28.02-02.03.                     | 1223756.81                                |
| 31  | Lecture: "OCT in my practice"   | 28.02.2023                       | 119668.03                                 |
| 32  | Lecture: "How to beat diabetes"   | 02.03.2023                       | 35000                                     |
| 33  | Lecture: "Complications of diabetes mellitus"   | 02.03.2023                       | 35000                                     |
| 34  | Lecture: "Self- control in diabetes"  | 02.03.2023                       | 35000                                     |
| 35  | Lecture: "Diabetic polyneuropathy and self-control"   | 29.03.2023                       | 35000                                     |
| 36  | Lecture: "Physiology for the future of personalized care"   | 31.03.2023                       | 87983.92                                  |
